Professional Experience

Accountant & ERP System Administrator

March 2025 - Present

Wahat Azal | Jeddah, Saudi Arabia

- Managed and operated an ERP system for more than 5,500 products in a 24-hour multi-activity retail environment.
- Led a full data migration from a legacy system to a new ERP, covering inventory, financial balances, and more than 11,000 historical records.
- Corrected item costing data to improve income statement accuracy and support management approval of financial results.
- Reviewed 20 to 40 supplier invoices daily, validating prices, quantities, and supplier returns.
- Prepared slow-moving and expiry reports, daily sales reports, cash follow-up, expenses, and supplier payable tracking.
- Performed bank reconciliations, supported VAT filing, and participated in monthly and annual inventory counts.
- Provided operational and technical support across departments as the main ERP system owner.

Part-Time Accountant & System Administrator

December 2025 - Present

Nahr Al Sagheer - Aquarium Retail Store | Jeddah, Saudi Arabia

- Set up the accounting system from scratch, including chart of accounts and financial workflow structure.
- Entered and organized more than 300 products and built the inventory database.
- Prepared profit, expense, and performance reports.
- Trained employees on system usage, daily operations, and remote inventory monitoring.

Data Analyst

Al Watania Poultry | Egypt

- Prepared sales, cost, and operational reports using Excel.
- Analyzed data with Power Query and improved report accuracy.
- Designed Power BI dashboards to support management decisions.
- Organized databases and improved report extraction speed.

Projects & Independent Experience

Al Hawiyah Gas Warehouse - Taif

- Implemented Rewaa ERP from scratch, including chart of accounts and financial workflow setup.
- Prepared inventory, classified products, organized documentation flow, and made the system ready for full operation.

Al Muthalath Al Shamsi Est. - Jeddah

- Reorganized inventory data inside the system and performed full stock counting and product classification.
- Trained employees and management on system usage and operational reporting.

Black Uniform - Jeddah

- Reorganized accounts and documentation flow, and analyzed the current accounting system.
- Suggested more efficient solutions to improve report accuracy and ease of extraction.

This CV was designed to match the visual identity of Abdelrahman Mohamed Hamza's portfolio.
